This bar-code number lets you verify that you're getting exactly the right version or edition of a book. The 13-digit and 10-digit formats both work. An adequate formulation should describe the dynamics at least three of these levels. A better formulation addresses even more. These levels are considered in greater detail in Appendix A. "Persons's insights into case formulation are second to none. This book brilliantly demonstrates that you don't have to sacrifice good science to be an excellent clinician, and vice versa. Psychoanalysis is a set of theories and therapeutic techniques related to the study of the unconscious mind, which together form a method of treatment for mental-health disorders.
