

Download Red Eyes

Red hair (or ginger hair) occurs naturally in one to two percent of the human population, appearing with greater frequency (two to six percent) among people of northern or western European ancestry and lesser frequency in other populations. Eye color is a polygenic phenotypic character determined by two distinct factors: the pigmentation of the eye's iris and the frequency-dependence of the scattering of light by the turbid medium in the stroma of the iris.

Little Red Riding Hood Charles Perrault Once upon a time there lived in a certain village a little country girl, the prettiest creature who was ever seen.

Rapunzel is a featured article, which means it has been identified as one of the best articles produced by the Disney Wiki community. If you see a way this page can be updated or improved without compromising previous work, please feel free to contribute.
