

Download Routine Referral For Radiography Of Patients Presenting With Low Back

Recommendation 1: Clinicians should conduct a focused history and physical examination to help place patients with low back pain into 1 of 3 broad categories: nonspecific low back pain, back pain potentially associated with radiculopathy or spinal stenosis, or back pain potentially associated with another specific spinal cause. Welcome to the Radiology Section @ Chiro.Org! This section contains charts and guides to help you perform radiographic examinations, and provides links to other radiology sites, and contains interesting articles on diagnostic imaging. Teaching Points Teaching Points. The prevalence of previously undiagnosed serious pathology in patients presenting with acute low back pain in the primary care setting is very rare 1Heart failure develops when the heart, via an abnormality of cardiac function (detectable or not), fails to pump blood at a rate commensurate with the requirements of the metabolizing tissues or is able to do so only with an elevated diastolic filling pressure.
