

Download Running For The Cause Or Walking The Talk The Influence

Our consulting approach is designed to conscientiously guide your organisation to cultural transformation, whilst at the same time building the competency within your business to support, manage, lead and measure culture. Bipedalism is a form of terrestrial locomotion where an organism moves by means of its two rear limbs or legs. An animal or machine that usually moves in a bipedal manner is known as a biped / ˈbɪpəd /, meaning "two feet" (from the Latin bis for "double" and pes for "foot").
