

# Download Section 1 Guided Postwar America Key

The Essential Weapon Identification Guide: Postwar Air Weapons is a highly illustrated guide to the air-launched weapons used by the world's armed forces since World War II, outlining their capabilities, deployment, and use in combat. A modern torpedo is a self-propelled weapon with an explosive warhead, launched above or below the water surface, propelled underwater towards a target, and designed to detonate either on contact with its target or in proximity to it.
