

Download Sefer Yetzira The Book Of Creation In Theory And Practice

Excellent book. Very technical, thorough, and does a great job of explaining the origins of the world and the inherent powers in the universe and ourselves. Now in its 7th printing since republication in 1997, the Sefer Yetzirah has established itself as a primary source for all serious students of Kabbalah. Rabbi Kaplan's translation of this oldest and most mysterious of all Kabbalistic texts provides a unique perspective on the meditative and magical aspects of Kabbalah. He expounds on the dynamics of the spiritual domain, the worlds of Sefirot, souls and angels. It was written prior to Rabbi Shimon's Zohar, or The Book of Splendor. This version of The Sefer Yetzirah contains three versions. They are the short, middle, and long (my words) versions of the Kabbalistic version of the creation story. Aryeh Kaplan is one of those writers whose very name tells you that this is a worthy book and well researched and written. He has written many wonderful books on Kabbalah. You can't go wrong owning this one. It's deeply researched, and is quite lengthy. Start reading Sefer Yetzirah: The Book of Creation in Theory and Practice on your Kindle in under a minute.
