

Download Segway Human Transporter More Than A Cool Invention

Segway's incredible line of personal transportation vehicles makes getting around easier than ever. Experience the future of personal mobility today. Inventions. Kamen is best known for inventing the product that eventually became known as the Segway PT, an electric, self-balancing human transporter with a computer-controlled gyroscopic stabilization and control system. Introducing the HTWay, a Segway type self-balancing robot. This robot uses the HiTechnic Gyro Sensor as well as the HiTechnic IRReceiver. The Gyro sensor is used to maintain balance while the IR Receiver allows it to be controlled with a LEGO Power Functions remote. Dean Kamen is a leading American scientist and inventor whose products include the Segway human transporter (HT) and the iBOT battery-powered wheelchair.
