

Download Shell Script Exercises With Solutions

Shell Scripting Tutorial. A Bourne Shell Programming / Scripting Tutorial for learning about using the Unix shell. Learn Linux / Unix shell scripting by example along with the theory. Write a shell script that takes a uid as an argument and prints out that person's name, home directory, shell and group number. Print out the name of the group corresponding to the group number, and other groups that person may belong to. CPS 5401 Fall 2016 Homework 1 Due 6:30pm (at the end of the lecture) on Tuesday, September 13 Unix Shell Scripting Exercises: Solutions Note: The purpose of this solution sheet is to provide examples of correct answers. I'm just learning to write shell scripts (new to the whole UNIX thing) and I'm wondering if anyone would like to help me create a resource to help me, and others like me, learn scripting. It would be something like "100 interesting shell scripting problems".
