Copyright © 2000-2010 by MoreSteam.com LLC Powered by COURSE SEQUENCE The course is presented in a logical sequence to follow the Six Sigma DMAIC improvement process. The world of Six Sigma relies on statistics and hard data to provide process improvement. Utilizing a series of tools, strategies, and data formats, trained professionals are able to determine problems within a process, how each problem can be rectified, implement the necessary changes, and then monitor the situation. Get the training you need to operate as a Six Sigma Green Belt. This course covers topics beyond the Six Sigma Foundations course, including measurement system analysis, descriptive statistics, hypothesis testing, experiment design, statistical process control, and more.
