

Download Solution Architect Vs Enterprise

SparxSystems presents the newest version of his UML software modeling tool Enterprise Architect. Power Tools & Frameworks. As a business, systems and software development professional working on real-time, embedded and systems solutions using UML, SysML, DDS, DMN, BPSim and related technologies, this edition of Enterprise Architect has features and built-in tools to help you and your team deliver the best solution possible. ArchiSpark neat. ArchiSpark neat connects to Enterprise Architect, providing an easy method of managing large amounts of business data. Neat (neat enterprise architecture tool) allows for the modeling of enterprise architectures in data grids, while maintaining full control of the ArchiMate™ 2.1 metamodel. At Enterprise Architects Group, we are leaders in our field with over 14 years industry experience with leading global organisations. Our brands include FromHereOn, our consulting arm, specialising in business, experience and capability design.
