

Download Stanford University Software Engineering

Stanford University, one of the world's leading teaching and research institutions, is dedicated to finding solutions to big challenges and to preparing students for leadership in a complex world. Stanford University was founded in 1885 by Leland and Jane Stanford, dedicated to Leland Stanford Jr, their only child. The institution opened in 1891 on Stanford's previous Palo Alto farm. We are proud of our heritage of innovation and entrepreneurship that helped create Silicon Valley and leaders in industry and academia worldwide. Stanford on iTunes U is an archive of audio and video content from schools, departments, and programs across the university on Apple's popular iTunes platform.
