

# Download Starting Out With Python Solutions

Please forgive me for bumping such an old thread, but I've been teaching myself linux and python with the help of the community, and was trying to figure out how to invoke IDLE2 and IDLE3 from the command line. The Best Way to Learn Python. The best way to learn python starts with deciding what you want to build. Next you'll want to find a course or some resources to help guide you through developing your idea. Tony Gaddis is the principal author of the Starting Out with series of textbooks. He has nearly two decades of experience teaching computer science courses, primarily at Haywood Community College. Key terms¶ pip is the preferred installer program. Starting with Python 3.4, it is included by default with the Python binary installers. A virtual environment is a semi-isolated Python environment that allows packages to be installed for use by a particular application, rather than being installed system wide.
