I've been staring at my screen for a while now, tears still damp on my cheeks, trying to figure out how to write this review. I haven't cried over a book and haven't been in this state of both bittersweet heartache and contentment since Please Ignore Vera Dietz. In this trilogy ender, Maddie's story has finally come to a Still Point. Awaken Series Book #3 Still Point Initially read September 4, 2014 2 out of 5 stars ... I would not really recommend unless just overcome with curiosity. Diese Einkaufsfunktion wird weiterhin Artikel laden. For this, I have built a great sense of respect for the author--and I still do greatly! I loved the momentum that Middle Ground built. However, I felt like everything went to a downhill in the end. Maddie, who was actually so passionate, was gone. I felt like she has abandoned the cause, the very reason for Awaken.
