<http://www.ijesrt.com>© International Journal of ...Figure 2: A ship's body plan comprised of superimposed construction geometry. Cross sections such as these recorded vessels on contractual order. The most comprehensive and in-depth guide to aerodynamic principles and their application to road vehicles. Passenger car, commercial vehicle, sports car, race car, and motorcycle aerodynamics are all examined in detail. Race car design is one of the most fascinating and yet one of the most complex aspects of the racing world. The design teams in the many motorsport categories are constantly developing new solutions with one single goal in mind: to make a car that, in combination with the driver, travels the distance of a circuit in an amount of time smaller
