Dear Twitpic Community - thank you for all the wonderful photos you have taken over the years. We have now placed Twitpic in an archived state. Biology is the natural science that studies life and living organisms, including their physical structure, chemical processes, molecular interactions, physiological mechanisms, development and evolution. Despite the complexity of the science, there are certain unifying concepts that consolidate it into a single, coherent field. Clinical Guidelines, Diagnosis and Treatment Manuals, Handbooks, Clinical Textbooks, Treatment Protocols, etc. Citing and more! Add citations directly into your paper, Check for unintentional plagiarism and check for writing mistakes.
