The history of Lilian Jackson Braun is perhaps as exciting and mysterious as her novels. Between 1966 and 1968, she published three novels to critical acclaim: *The Cat Who Could Read Backwards*, *The Cat Who Ate Danish Modern*, and *The Cat Who Turned On and Off*. I have read many of Ms Braun's books in the past, but never happened on this first one. It was a short introduction to Qwilleran's move north and his introduction to Koko, the first of his Siamese kitties, and the one who truly helped him solve crimes. The first appearance in hardcover of the first installment of the author's ever-popular series features the unusual detective team of award-winning reporter Jim Qwilleran and Koko, his brilliant Siamese cat, who penetrate the world of modern art to solve a mystery. 135,000 first printing. Cat senses are adaptations that allow cats to be highly efficient predators. Cats are good at detecting movement in low light, have an acute sense of hearing and smell, and their sense of touch is enhanced by long whiskers that protrude from their heads and bodies.
