Evolution and Biodiversity: The evolutionary basis of biodiversity and its potential for adaptation to global change Report of an electronic conference, March 2010

Modern warfare is warfare using the concepts, methods, and military technology that have come into use during and after World Wars I and II. The concepts and methods have assumed more complex forms of the 19th- and early-20th-century antecedents, largely due to the widespread use of highly advanced information technology, and combatants must ...
