The Three Musketeers was the title of two separate series produced by DC Comics; the first series was a loose parody of The Three Musketeers. In 1939, American author Tiffany Thayer published a book titled Three Musketeers (Thayer, 1939). The young D'Artagnan arrives in Paris with dreams of becoming a king's musketeer. He meets and quarrels with three men, Athos, Porthos, and Aramis, each of whom challenges him to a duel. "The Three Musketeers" is unarguably an adventure film of great physical beauty and quite a bit of narrative power. It stands just after "The Best Years of Our lives" as one of the first Technicolor "A" films that broadened the palette used by filmmakers to include richness as well as, say, western or Arabian settings in adventure movies. The three original Musketeers are: Athos, Porthos, and Aramis. d'Artagnan was not made a musketeer until later in the book, I think after the stunt that they pulled at the si ... ege of La Rochelle.
