James Clerk Maxwell (* 13. Juni 1831 in Edinburgh; † 5. November 1879 in Cambridge) war ein schottischer Physiker. Er entwickelte einen Satz von Gleichungen (die Maxwell-Gleichungen), welche die Grundlagen der Elektrizitätslehre und des Magnetismus bilden. James Clerk Maxwell (Edimburgo, 3 giugno 1831 – Cambridge, 5 novembre 1879) è stato un matematico e fisico scozzese. In electromagnetism, one of the fundamental fields of physics, the introduction of Maxwell's equations (mainly in "A Dynamical Theory of the Electromagnetic Field") was one of the most important aggregations of empirical facts in the history of physics. ?????? ?????? ??????????
