

# Download The Thick Of It The Missing Dosac Files

The Thick of It is a British comedy television series that satirises the inner workings of modern British government. It was first broadcast for two short series on BBC Four in 2005, initially with a small cast focusing on a government minister, his advisers and their party's spin-doctor. An alternate-universe spin-off movie, *In the Loop*, was released in 2009, featuring many from the Thick Of It ensemble, but cast in different roles (except for Malcolm, Jamie and Sam, and briefly Angela Heaney) as they desperately try not to get involved in a war in the Middle East after a Minister's gaffe. The Thick of It smashes its way through the corridors of power in a bulldozer of amusing slip-ups and sharp satire. This brilliant and hilarious series chronicles the blunders of the fictitious Department of Social Affairs and Citizenship, a government department barely registering on the national radar.
