“Gene Wolfe's four-volume magnum opus, The Book of the New Sun, is one of the modern masterpieces of imaginative literature--an evocation of a world so far in the future that magic and technology, poetry and science, are indistinguishable, a world heavy with time but yet bereft of hope, a world brought to life by Mr. Wolfe's unique blend of slightly archaic diction and ever-surprising vocabulary. The Book of the New Sun (1980 – 1983) is a series of four science fantasy novels or one four-volume novel written by American author Gene Wolfe. Alternatively, it is a series comprising the original tetralogy, a 1983 collection of essays, and a 1987 sequel. Gene Wolfe's The Sword of the Lictor essentially contains no plot, but it's the best plotless book I've ever read. It's one of the best books I've ever read, period.
