Robin Reardon's "Thinking Straight" explores the story of Taylor Adams, a gay Christian teenager who is sent to the program Straight To God, which is a Christian organization designed to "deprogram" teenagers from their various vices, from drugs, alcohol and most prevalently, homosexuality. Robin Reardon is an inveterate observer of human nature, and her primary writing goal is to create stories about all kinds of people, some of whom happen to be gay or transgender--people whose destinies are not determined solely by their sexual orientation or identity.
