-Healthy and sustainable. Simple natural materials and modern components taking advantage of the latest Swedish research. We avoid complex composite materials that are full of glues and other chemicals in order to create healthy and sustainable houses. Spotlight on Sustainable Development Goal 5: Achieve gender equality and empower all women and girls The modern profession of architecture echoes with its origins, its rich history, and the fast-paced changes of the 21st century. Through antiquity, architecture and construction were united by the cultural intentions of a "Master Builder," who balanced art, science, materials, form, style and craft to achieve his vision. Extensive research on the agronomic potential and actual effectiveness of phosphate rocks (PRs) as sources of phosphorus has been carried out in Africa, Asia, Latin America and elsewhere. A wealth of information is available, but it is scattered among meeting proceedings, technical reports and scientific and other publications. This bulletin ...
