

Download Violence And Warfare Among Hunter Gatherers

This bar-code number lets you verify that you're getting exactly the right version or edition of a book. The 13-digit and 10-digit formats both work. A hunter-gatherer is a human living in a society in which most or all food is obtained by foraging (collecting wild plants and pursuing wild animals). Interpersonal violence is divided into two subcategories: Family and intimate partner violence – that is, violence largely between family members and intimate partners, usually, though not exclusively, taking place in the home. The levels of violence in prehistoric times (archeological evidence) and in non-state societies (ethnographic evidence) was much higher than in modern state societies and in the world today.
