FLVS (Florida Virtual School) is an accredited, public, e-learning school serving students in grades K-12 online - in Florida and all over the world. In this tutorial we will be looking at logarithmic functions. If you understand that A LOG IS ANOTHER WAY TO WRITE AN EXPONENT, it will help you tremendously when you work through the various types of log problems. Course Ratings are calculated from individual students' ratings and a variety of other signals, like age of rating and reliability, to ensure that they reflect course quality fairly and accurately. Quotes. What information consumes is rather obvious: it consumes the attention of its recipients. Hence a wealth of information creates a poverty of attention, and a need to allocate that attention efficiently among the overabundance of information sources that might consume it.
