

Download Where To Buy Chromatography Paper

Grade 1 Chr. The world standard chromatography paper. A smooth surface, 0.18 mm thick with a linear flow rate (water) of 130 mm/30 min. Good resolution for general analytical separations. To ensure the stability and performance of chromatography and spectroscopy analyses, Agilent offers a range of laboratory supplies to meet the challenges of any application. GE Whatman 3001-845 Grade 1 Chr Cellulose Chromatography Paper Sheet, 10cm Width, 30cm Length (Pack of 100) Packaging 10, 25, 100 g in poly bottle Application Guanine is suitable reagent used to investigate the mechanism of electrochemical oxidation of guanine and adenine using a glassy carbon microelectrode and cyclic and differential pulse voltammetry.
