The Princess Bride is a 1973 fantasy romance novel by American writer William Goldman. The book combines elements of comedy, adventure, fantasy, romantic love, romance, and fairy tale. Vogel briskly collates his evidence (songs, interviews, other critics) meticulously tracing patterns in Prince's evolution ... Illuminating though it is, his book can't quite crack Prince's mysterious code. Tom Bower's new biography of Prince Charles says he confronted his mother, Queen Elizabeth, about accepting Camilla Parker Bowles into the royal family. The Prince (Italian: *Il Principe* [il 'print'ipe]) is a 16th-century political treatise by the Italian diplomat and political theorist Niccolò Machiavelli.
