

Download Zoola Palooza A Book Of Homographs

The book is called ZOOLA PALOOZA by Gene Barretta. The story is about animals at a concert. It was fun to find similarities to a real concert that I've been to. The pictures are bright and full of detail. The subject of each page is colored in such a way that draws attention to it while the background of each page is contrasted to draw your attention away back towards the subject. The colors make each page interesting to look at, but the wording is also interesting. This is an awesome book. My 5 year old great niece loves it. The toddlers that I take care of love the bright colored pictures. They often want this book read to them. The all-animal touring concert group Zoola Palooza has come to town. With a motley crew of animals playing a variety of instruments, homographs abound (homographs are words that are spelled the same but sound different and have different meanings). Billy the striped BASS opens the show wearing a big BOW tie. He gives a gracious BOW from the top of his BASS fiddle. The all-animal touring concert group Zoola Palooza has come to town.
